
Award Winning Quatreau Tap Releases Quatreau Cafe

PRESS RELEASE AUG 29, 2017 11:11 EDT

Florida, USA , August 29, 2017 (Newswire.com) - Named by Better Homes and Garden's *Beautiful Kitchens and Bath's* "30 Most Innovative Product of 2017", The [Quatreau Tap](#) launches The Quatreau Cafe.

The Quatreau Cafe is the companies compact, modular water and food prep station perfect for the butlers pantry, en suite, office and outdoor kitchens.

The Quatreau Cafe delivers the same pure instant boiling, chilled and sparkling water features that has made the Quatreau Tap the most sought after kitchen appliance of

the year.

- Instant Boiling- Delivers 20 liters per hour
- Instant Sparkling and Chilled- Delivers 20 liters per hour
- Integrated pure water filtration and Co2 system
- LED lit buttons
- Choice of finishes
- NSF Approved
- Made with Stainless Steel

About: The [Quatreau Tap](#) patented RODI system is qualified to remove all impurities in tap water (and the only system to carry EPA certification for removal of micro-organisms), producing the purest freshest, greatest tasting water. It's also the only system to use an intelligent management processor to minimize water usage, while optimizing the rejection rate of the reverse osmosis membrane. It's the only process that incorporates automatic flushing to remove the scale that normally blocks a membrane extending life and maintaining the production capacity for up to ten years. As a patented system it's the only one to incorporate a cleverly designed De-Ionisation module after the Reverse Osmosis stage to ensure impurities such as nitrates, slug poison, VOCs and heavy metals are removed in their entirety.
